SUBJECT INDEX, VOLUME 28

A

PAGE

A *Chlamydomonas* algal bioassay for detecting growth inhibitor herbicides . . . 515
A continuous-belt herbicide wiper . . . 705
A sprinkler system for research on applying herbicides in irrigation water . . . 201
A technique for estimating weed seed populations in cultivated soil . 134
Absorption and translocation of buthidazole . . . 352
Absorption and translocation of tetrafluron in cotton (*Gossypium hirsutum*), jimsonweed (*Datura stramonium*), peanut (*Arachis hypogaea*), and prickly sida (*Sida spinosa*) . . . 557
Absorption, glyphosate, in bermudagrass and horsenettle . . . 93
Absorption of dicamba in Canada thistle, chlorflurenol on . . . 197
Absorption of diclofop-methyl, selectivity mechanisms . . . 474
Absorption of 2,4-D or glyphosate in hemp dogbane . . . 149
Absorption, translocation, and metabolism of ^{14}C-buthidazole in alfalfa (*Medicago sativa*) and quackgrass (*Agropyron repens*) . . 635
Absorption, translocation, and metabolism of 2,4-D and glyphosate in hemp dogbane (*Apocynum cannabinum*) . . . 13
Abutilon theophrasti, competition of soybeans with . . . 729
Abutilon theophrasti seed inhibition of turnip seed germination . . 658
Abutilon theophrasti seeds, longevity of . . . 341
Acetamide herbicide applications, on efficacy of protectant CGA-43089 . . . 646
Acetanilide-antidote combinations for weed control in corn (*Zea mays*) and sorghum (*Sorghum bicolor*) . . . 699
Acetanilide herbicides, effect on peas and weeds . . . 589
Acetanilide herbicides for yellow nutsedge (*Cyperus esculentus*) control in corn (*Zea mays*) . . . 593
Action of selected herbicides and Tween 20 on oat (*Avena sativa*) membranes . . . 122
Adsorption of buthidazole, VEL 3510, tebuthiuron, and fluridone by organic matter, montmorillonite clay, exchange resins, and a sandy loam soil . . . 478
Aerial application of 2,4,5-T to longleaf pine . . . 255
Africa, research needs in . . . 439
Afterripening, redroot pigweed seed germination responses to . . . 543
Afterripening temperature on downy brome germination . . . 321
Agropyron repens, absorption, translocation, and metabolism of buthidazole in . . . 635
Agropyron repens, control of, in soybeans . . . 493
Agropyron repens control with glyphosate . . . 654
Alachlor, growth inhibitory characteristics of . . . 168
Alachlor uptake, translocation, and metabolism in snap beans . . . 131
Albugo tragopogi damage to ragweed . . . 632
Alfalfa, absorption, translocation, and metabolism of buthidazole in . . . 635
Alfalfa, control of dandelion and perennial sowthistle in . . . 164
Alfalfa seed, weed control from EPTC applied with . . . 607
Algal bioassay, *Chlamydomonas* for detecting herbicides . . . 515
Allelopathic activity of Canada thistle (*Cirsium arvense*) in Colorado . 83
Allelopathic effect of yellow nutsedge on corn and soybeans . . . 229
Allelopathy in dwarf spikerush (*Eleocharis coloradoensis*) . . . 499
Aloysia lycioides control with soil-applied herbicides . . . 204
Amaranthus retroflexus competition with cotton . . . 258
Amaranthus retroflexus, competitiveness with cotton . . . 568
Amaranthus retroflexus, nitrate reduction in . . . 484
Amaranthus retroflexus seed germination, responses to environment . . . 543
Amaranthus retroflexus, stimulation of germination by ethylene . 510
Amaranthus retroflexus, uptake and translocation of buthidazole . 285
Ambrosia artemisiifolia, damage to, caused by white rust fungus . 632
Amino acids, interaction with glyphosate on transpiration in *Phaseolus vulgaris* . . . 31
Ammonium, germination response of weed seeds to . . . 190
Ampelamus albidus response to herbicides . . . 722
An analysis of the growth inhibitory characteristics of alachlor and metolachlor . . . 168
Anatomy of yellow nutsedge (*Cyperus esculentus*) . . . 432
Antagonistic effect of 2,4-D on diclofop-methyl toxicity to wild oats . . . 371
Anthocyanin, glyphosine and glyphosate metabolites on . . . 393
Anthocyanin formation of corn, buthidazole on . . . 97
Antidote combinations for weed control in corn and sorghum . . . 699
Antidotes against buthidazole injury to corn . . . 273
Apocynum cannabinum, absorption, translocation, and metabolism of 2,4-D and glyphosate in . . . 13
Apocynum cannabinum, 2,4-D and glyphosate absorption and translocation in . . . 149
Arachis hypogaea, absorption and translocation of tetrafluron in . 557
Arachis hypogaea, row spacing on . . . 401
Area, projected leaf, in weed control research . . . 548
Asia, role of IRRI in weed science in . . . 461
Asian vegetable cropping systems, weed management in . . . 445
Aspects of seed dormancy in fall panicum (*Panicum dichotomiflorum*) . . . 64
Atmospheric CO_2 enrichment on growth of C_3 and C_4 weed and crop plants . . . 71
Atrazine carryover in soil in a reduced tillage crop production system . . . 661
Atrazine dissipation as affected by surface pH and tillage . . . 101
Atrazine tolerance within cucumber . . . 142
Audible timer for hand-carried plot sprayers . . . 690
Avena fatua control with triallate . . . 416
Avena fatua, 2,4-D on diclofop-methyl toxicity to . . . 371
Avena fatua, hydrolysis of diclofop-methyl in . . . 725
Avena sativa, interactions of diclofop-methyl and 2,4-D in . . . 363
Avena sativa membranes, action of herbicides and Tween 20 on . . 122
Avena sativa-Glycine max ecofarming, control of weeds in . . . 46
Azide, sodium, granules to enhance seed germination . . . 674

B

Barnyardgrass control and glyphosate absorption, growth stage and water stress on . . . 277
Barnyardgrass control with diclofop . . . 366
Beans, snap, alachlor uptake, translocation, and metabolism in . . 131
Beans, weed control in western Nebraska in . . . 295
Benefin effects on tobacco foliage . . . 306
Bentazon for Canada thistle (*Cirsium arvense*) control in peppermint (*Mentha piperita*) . . . 36
Bermudagrass, glyphosate absorption and translocation in . . . 93
Bermudagrass, residual effects of herbicides on . . . 716
Bermudagrass turf, goosegrass control in . . . 378
Bermudagrass turf, winter weed control in . . . 385
Beta vulgaris, control of annual weeds by herbicides . . . 152
Beta vulgaris root tissue, glyphosate on permeability of . . . 671
Bioassay, algal, for detecting herbicides . . . 515
Biological control of common mullein . . . 27
Biomass, cogongrass, shading on . . . 735
Biotype studies of yellow foxtail . . . 159
Brassica oleracea, interference by pale smartweed . . . 381
Brassica rapa seed germination, inhibition of . . . 658
Brome, downy, germination of, afterripening temperature and endogenous rhythms on . . . 321
Bromus tectorum, germination, temperature and endogenous rhythms on . . . 321
Broomrape control, effectiveness of glyphosate on . . . 692
Broomrape, Egyptian, control by solar heating of soil . . . 312
Broomrape in the United States . . . 119

Burning, fall, of chaparral on picloram soil residues 282
Buthidazole, absorption and translocation of 352
Buthidazole, absorption, translocation, and metabolism of 635
Buthidazole, adsorption of 478
Buthidazole, antidotes for corn 273
Buthidazole, ionization of 467
Buthidazole on photosynthesis, respiration, anthocyanin formation, and leaf ultrastructure 97
Buthidazole uptake and translocation in corn and pigweed 285

C

Cabbage, interference by pale smartweed 381
Canopy and chemistry of pasture weeds 139
C_3 weed and crop plants, CO_2 enrichment on growth of 71
Carduus thoermeri, inheritance of flower color 347
Cassia obtusifolia competition with cotton 258
Cassia obtusifolia geographic distribution, germination, and emergence 68
Cassia obtusifolia, leaf movement response to herbicides 551
Cassia occidentalis geographic distribution, germination, and emergence 68
Centro Internacional de Agricultura Tropical, weed sciences at . . 454
CGA-43089, influence of acetamides on efficacy of 646
Chaparral, fall burning on picloram soil residues 282
Chemical control of dandelion (*Taraxacum officinale*) and perennial sowthistle (*Sonchus arvensis*) in alfalfa (*Medicago sativa*) grown for seed 164
Chemistry of pasture weeds 139
Chenopodium album, nitrate reduction in 484
Chlamydomonas algal bioassay for detecting herbicides 515
Chloracetamides, protein synthesizing system to test mode of action of 334
Chlorflurenol effects on absorption and translocation of dicamba in Canada thistle (*Cirsium arvense*) 197
Chlorophyll, glyphosine and glyphosate metabolites on 393
Cirsium arvense, allelopathic activity in Colorado 83
Cirsium arvense, chlorflurenol absorption and translocation of dicamba in 197
Cirsium arvense control in peppermint with bentazon 36
Clay, montmorillonite, adsorption of herbicides by 478
Clover broomrape (*Orobanche minor*) in the United States 119
CO_2 enrichment on growth of C_3 and C_4 weed and crop plants . . . 71
Coating sodium azide granules to enhance seed germination. 674
Cocklebur, common, stimulation of germination by ethylene. . . . 510
Cogongrass in Iraq, morphological development of 324
Cogongrass, shading on growth of 735
Cogongrass, temperature, photoperiod, and population source on growth of 505
Comparative morphological development of cogongrass (*Imperata cylindrica*) in Iraq 324
Competition between yellow nutsedge (*Cyperus esculentus*) and Japanese millet (*Echinochloa crus-galli* var. *frumentacea*) 24
Competition, intraspecific, of *Hydrilla verticillata* 425
Competition, of sicklepod (*Cassia obtusifolia*) and redroot pigweed (*Amaranthus retroflexus*) with cotton (*Gossypium hirsutum*) 258
Competition of soybeans with velvetleaf 729
Competition of yellow nutsedge with cotton 327
Competitiveness of C_3 and C_4 weed and crop plants, by CO_2 enrichment 71
Continuous-belt herbicide wiper 705
Control, biological, of common mullein 27
Control of annual weeds in sugarbeets 152
Control of barnyardgrass with diclofop 366
Control of Egyptian broomrape (*Orobanche aegyptiaca*) and other weeds by means of solar heating of the soil by polyethylene mulching 312
Control of leafy spurge (*Euphorbia esula*) in Nebraska with the spurge hawkmoth (*Hyles euphorbiae*) 235
Control of live oak (*Quercus virginiana*) and understory vegetation with soil-applied herbicides 51
Control of quackgrass (*Agropyron repens*) in soybeans (*Glycine max*) with HOE 29152 493
Control of quackgrass with glyphosate 654
Control of six morningglory (*Ipomoea*) species in soybeans (*Glycine max*) 409
Control of smutgrass in south Florida 316
Control of volunteer wheat (*Triticum aestivum*) in fall-planted perennial ryegrass (*Lolium perenne*) with ethofumesate 292
Control of weeds in an oat (*Avena sativa*)-soybean (*Glycine max*) eco-farming rotation 46
Control of weeds in cranberries (*Vaccinium macrocarpon*) with glyphosate and terbacil 565
Control of weeds in field beans 295
Control of whitebrush (*Aloysia lycioides*) and associated species with soil-applied herbicides 204
Controlled-release formulations of trifluralin in greenhouse and field 21
Corn, acetanilide-antidole combinations for weed control in 699
Corn, allelopathic effect of yellow nutsedge on 229
Corn, antidotes for buthidazole injury to 273
Corn, diuron reduction of transpiration and increased water efficiency in 180
Corn, effects of buthidazole on 97
Corn, gibberellic acid sensitivity 11
Corn, nutsedge control in 593
Corn, uptake and translocation of buthidazole 285
Corn yield, effect of pH, nitrogen, and tillage on 719
Cotton, absorption and translocation of tetrafluron in 557
Cotton, application of dinitrobenzamines at layby of 212
Cotton, competition of sicklepod and redroot pigweed with 258
Cotton, competition of yellow nutsedge in 327
Cotton, competitiveness of weeds with 568
Cotton, phenylurea herbicide interaction in 521
Cranberries, control of weeds in 565
Crop safety of herbicides, starch xanthate and sludge polymer on . 626
Cucullia verbasci an agent for the biological control of common mullein (*Verbascum thapsus*) 27
Cucumber, atrazine tolerance within 142
Cucumis sativus, atrazine tolerance within 142
Cultural practices in smutgrass control 585
Cuscuta campestris, germination of 330
Cynodon dactylon, glyphosate absorption and translocation in . . . 93
Cynodon dactylon, goosegrass control in 378
Cynodon dactylon, residual effects of herbicides on 716
Cynodon dactylon turf, winter weed control in 385
Cyperus esculentus, allelopathic effect on corn and soybeans . . . 229
Cyperus esculentus, anatomy of 432
Cyperus esculentus, competition with cotton 327
Cyperus esculentus, competition with Japanese millet 24
Cyperus esculentus control in corn with acetanilide herbicides . . . 593
Cyperus esculentus response to metolachlor 708
Cyperus rotundus response to metolachlor 708

D

Damage to common ragweed (*Ambrosia artemisiifolia*) caused by the white rust fungus (*Albugo tragopogi*) 632
Dandelion control in alfalfa 164
Datura stramonium, absorption and translocation of tetrafluron in 557
Delayed incorporation of herbicides, starch xanthate and sludge polymer on 626
Determining projected leaf area in weed control research 548
Dicamba absorption and translocation, chlorflurenol on 197
Diclofop, control of barnyardgrass 366
Diclofop, foliar activity of 534
Diclofop-methyl and 2,4-D in cultivated oats 363
Diclofop-methyl, 2,4-D on hydrolysis of 725
Diclofop-methyl, selectivity mechanisms 474
Diclofop-methyl toxicity to wild oat, 2,4-D on 371

Differential atrazine tolerance within cucumber (*Cucumis sativus*) . . . 142
Dinitramine, persistence in soil . . . 650
Dinitroaniline persistence on soil surface . . . 105
Dinitrobenzamine herbicides applied at layby of cotton . . . 212
Diphenamid selectivity in seeded tomato . . . 176
Directions for contributors to WEED SCIENCE Journal articles . . 128
Dissemination of weed seeds by surface irrigation water in western Nebraska . . . 87
Dissipation of atrazine, surface pH and tillage on . . . 101
Dissipation, picloram, in a stream . . . 612
Distribution of 2,4,5-T, triclopyr, picloram, and 3,6-dichloropicolinic acid in honey mesquite . . . 666
Diuron, reduced transpiration and increased water efficiency in corn by . . . 180
Dodder, germination of . . . 330
Dogbane, hemp, absorption, translocation, and metabolism of 2,4-D and glyphosate in . . . 13
Dogbane, hemp, 2,4-D and glyphosate absorption and translocation in . . . 149
Dormancy, germination, and emergence characteristics of fall panicum (*Panicum dichotomiflorum*) seed . . . 683
Dormancy in yellow foxtail biotypes . . . 159
Dormancy, seed, in fall panicum . . . 64
Drummond's goldenweed, uptake and transport of 2,4-D and picloram by . . . 678

E

Echinochloa crus-galli control and glyphosate absorption, growth stage and water stress on . . . 277
Echinochloa crus-galli control with diclofop . . . 366
Echinochloa crus-galli var. *frumentacea*, competition with yellow nutsedge . . . 24
Ecofarming rotation, weed control in oat-soybean . . . 46
Ecology of dwarf spikerush . . . 263
Ecotypic variation of *Tamarix pentandra* epicuticular wax and possible relationship with herbicide sensitivity . . . 110
Effect of 2,4-D on the hydrolysis of diclofop-methyl in wild oat (*Avena fatua*) . . . 725
Effect of glyphosate on membrane permeability in red beet (*Beta vulgaris*) root tissue . . . 671
Effect of growth stage and water stress on barnyardgrass (*Echinochloa crus-galli*) control and on glyphosate absorption and translocation . . . 277
Effect of lanolin or lanolin+starch rings on absorption and translocation of 2,4-D or glyphosate in hemp dogbane (*Apocynum cannabinum*) . . . 149
Effect of light on the response of tomato (*Lycopersicon esculentum*) and two weed species to metribuzin . . . 186
Effect of pH, nitrogen, and tillage on weed control and corn (*Zea mays*) yield . . . 719
Effectiveness and distribution of 2,4,5-T, triclopyr, picloram, and 3,6-dichloropicolinic acid in honey mesquite (*Prosopis juliflora* var. *glandulosa*) . . . 666
Effectivness of a new safener for protecting sorghum (*Sorghum bicolor*) from metolachlor injury . . . 1
Effectiveness of glyphosate in broomrape (*Orobanche* spp.) control in four crops . . . 692
Effects of benefin vaporizing from soils on tobacco (*Nicotiana tabacum*) foliage . . . 306
Effects of fall burning of chaparral woodland on soil residues of picloram . . . 282
Effects of glyphosate on metabolism of phenolic compounds. VI. Effects of glyphosine and glyphosate metabolites on phenylalanine ammonia-lyase activity, growth, and protein, chlorophyll, and anthocyanin levels in soybean seedlings . . . 393
Effects of herbicides on in vitro growth of mycorrhizae of pines (*Pinus* spp.) . . . 599
Effects of shading on the anatomy and ultrastructure of the leaf mesophyll and vascular bundles of itchgrass (*Rottboellia exaltata*) . 216
Effects of starch xanthate and sludge polymer on the initial activity with delayed incorporation, residual activity, and crop safety of several herbicides . . . 626
Effects of temperature, photoperiod, and population source on the growth of cogongrass (*Imperata cylindrica*) . . . 505
Eleocharis coloradoensis, allelopathy in . . . 499
Eleocharis coloradoensis, life history and ecology . . . 263
Eleusine indica control in bermudagrass . . . 378
Emergence of fall panicum . . . 683
Emergence of tall fescue, siduron effects on . . . 194
Endogenous rhythms on downy brome germination . . . 321
Enhancement of gibberellic acid sensitivity in corn (*Zea mays*) by fluridone and R-40244 . . . 11
Environmental factors, redroot pigweed seed germination responses to . . . 543
Environmental influences on the selectivity of diphenamid in seeded tomato (*Lycopersicon esculentum*) . . . 176
Epidermal tissues, pondweed, movement of herbicides through . . 419
EPTC leaching in soil . . . 241
EPTC, weed control from, applied with alfalfa seed . . . 607
Ericameria austrotexana and associated range forage responses to herbicides . . . 602
Ethofumesate, control of wheat in ryegrass with . . . 292
Ethylene, redroot pigweed seed germination responses to . . . 543
Ethylene, stimulation of seed germination . . . 510
Euphorbia esula, control of spurge hawkmoth . . . 235
Exchange resins, adsorption of herbicides by . . . 478

F

Factors affecting the toxicity of glyphosate applied in the recirculating sprayer to johnsongrass (*Sorghum halepense*) and soybeans (*Glycine max*) . . . 59
Factors influencing activity of acetanilide herbicides on processing peas (*Pisum sativum*) and annual weeds . . . 589
Factors influencing barnyardgrass (*Echinochloa crus-galli*) control with diclofop . . . 366
Fescue, tall, siduron effects on emergence, growth, high temperature injury . . . 194
Festuca arundinacea, siduron on emergence, growth, high temperature injury . . . 194
Flower color inheritance in musk thistle . . . 347
Fluridone, adsorption of . . . 478
Fluridone, gibberellic acid sensitivity in corn by . . . 11
Foliar activity of diclofop, soil moisture on . . . 534
Foliar applications of diclofop-methyl, selectivity mechanisms . . 474
Foliar uptake and transport of 2,4-D and picloram by Drummond's goldenweed (*Isocoma drummondii*) . . . 678
Formulations of trifluralin in greenhouse and field . . . 21
Fosamine, inhibition of mesquite growth by . . . 251
Foxtail, yellow, biotype studies . . . 159

G

Geographic distribution of sicklepod and coffee senna . . . 68
Germination, hemp sesbania seed . . . 487
Germination in yellow foxtail biotypes . . . 159
Germination of downy brome, afterripening temperature and endogenous rhythms on . . . 321
Germination of fall panicum seed . . . 683
Germination of field dodder (*Cuscuta campestris*) . . . 330
Germination, redroot pigweed, responses to environment . . . 543
Germination response of weed seeds to soil nitrate and ammonium with and without simulated overwintering . . . 190
Germination, sodium azide to enhance . . . 674
Germination, turnip seed, inhibition of . . . 658
Gibberellic acid sensitivity in corn by fluridone and R-40244 . . . 11
Glycine max, allelopathic effect of yellow nutsedge on . . . 229
Glycine max, competition with velvetleaf . . . 729
Glycine max, control of johnsongrass in . . . 529

Glycine max, control of morningglory in 409
Glycine max, control of quackgrass in 493
Glycine max, glyphosate toxicity applied by recirculating sprayer to 59
Glycine max, herbicide injury on yield of 40
Glycine max, phenylurea herbicide interaction in 521
Glycine max, translocation of ^{14}C-glyphosate in 113
Glycine max-Avena sativa ecofarming, control of weeds in 46
Glyphosate absorption and translocation and barnyardgrass control, growth stage and water stress on 277
Glyphosate absorption and translocation in bermudagrass (*Cynodon dactylon*) and activity in horsenettle (*Solanum carolinense*) . . . 93
Glyphosate, absorption and translocation of 149
Glyphosate absorption, translocation, and metabolism 13
Glyphosate, broomrape control with 692
Glyphosate, control of weeds in cranberries with 565
Glyphosate, effects of, on metabolism of phenolic compounds . . 393
Glyphosate for quackgrass control 654
Glyphosate interaction with aromatic amino acids on transpiration 31
Glyphosate on membrane permeability 671
Glyphosate, susceptibility of grasses to 579
Glyphosate toxicity applied by recirculating sprayer to johnsongrass and soybeans 59
Glyphosate translocation in soybeans and johnsongrass 113
Glyphosine on soybean seedling metabolism 393
Goosegrass (*Eleusine indica*) control in bermudagrass (*Cynodon dactylon*) turf 378
Gossypium hirsutum, absorption and translocation of tetrafluron in 557
Gossypium hirsutum, application of dinitrobenzamines at layby of 212
Gossypium hirsutum, competition of sicklepod and redroot pigweed with 258
Gossypium hirsutum, competition of yellow nutsedge in 327
Gossypium hirsutum, competitiveness of weeds with 568
Gossypium hirsutum, phenylurea herbicide interaction in 521
Granule structure and rate of release with starch-encapsulated thiocarbamates 685
Granules, sodium azide, to enhance seed germination 674
Grasses, response to metriflufen 540
Grasses, susceptibility to glyphosate 579
Growth analysis of soybeans (*Glycine max*) in competition with velvetleaf (*Abutilon theophrasti*) 729
Growth, glyphosine and glyphosate metabolites on 393
Growth inhibition of mesquite by fosamine 251
Growth inhibitor herbicides, algal bioassay for 515
Growth inhibitory characteristics of alachlor and metolachlor . . . 168
Growth of cogongrass, shading on 735
Growth of mycorrhizae, herbicides on 599
Growth of tall fescue, siduron on 194
Growth, root, of turf, as affected by herbicides 526
Growth stage of barnyardgrass control 277

H

Hawkmoth, spurge, control of leafy spurge with 235
Heating, solar, of soil for control of Egyptian broomrape 312
Hemp sesbania seed germination, moisture stress on 487
Herbicidal control of johnsongrass in soybeans 529
Herbicide, acetamide, on efficacy of CGA-43089 646
Herbicide and cultural practices in smutgrass (*Sporobolus poiretii*) control 585
Herbicide application, response of honeyvine milkweed to 722
Herbicide response, leaf movements in relation to 551
Herbicide sensitivity, ecotypic variation of *Tamarix pentandra* epicuticular wax and 110
Herbicide wiper, continuous-belt 705
Herbicides, acetanilide, for nutsedge control 593
Herbicides, algal bioassay for 515
Herbicides, application by sprinkler system in irrigation water . . . 201
Herbicides applied sequentially for economical control of annual weeds in sugarbeets (*Beta vulgaris*) 152
Herbicides, effect on root growth of turf 526
Herbicides, movement through pondweed epidermis 419
Herbicides on growth of pine mycorrhizae 599
Herbicides on newly planted bermudagrass 716
Herbicides, responses of *Ericameria* and forage to 602
Herbicides, starch xanthate and sludge polymer on activity of . . . 626
Hexazinon and other herbicides on Texas woody plants 358
Honeyvine milkweed, response to herbicides 722
Horsenettle, glyphosate activity in 93
Hydration-dehydration effects on seed germination 487
Hydrilla verticillata, intraspecific competition of 425
Hydrilla verticillata regrowth 245
Hyles euphorbiae, control of leafy spurge with 235

I

Imperata cylindrica in Iraq, morphological development of 324
Imperata cylindrica, shading on growth of 735
Imperata cylindrica, temperature, photoperiod, and population source on growth of 505
Influence of acetamide herbicide applications on efficacy of the protectant CGA-43089 in grain sorghum (*Sorghum bicolor*) 646
Influence of afterripening temperature and endogenous rhythms on downy brome (*Bromus tectorum*) germination 321
Influence of herbicide injury on the yield potential of soybeans (*Glycine max*) 40
Influence of rowspacing on competitiveness and yield of peanuts (*Arachis hypogaea*) 401
Influence of time of planting and distance from the cotton (*Gossypium hirsutum*) row of pitted morningglory (*Ipomoea lacunosa*), prickly sida (*Sida spinosa*), and redroot pigweed (*Amaranthus retroflexus*) on competitiveness with cotton 568
Inheritance of flower color in musk thistle (*Carduus thoermeri*) . . 347
Inhibition of mesquite (*Prosopis juliflora* var. *glandulosa*) growth by fosamine 251
Inhibition of turnip (*Brassica rapa*) seed germination by velvetleaf (*Abutilon theophrasti*) seed 658
Inhibitory characteristics of alachlor and metolachlor 168
Injury, herbicide, on yield of soybeans 40
Interaction between phenylurea herbicides 521
Interaction, mathematical expression of 573
Interaction of glyphosate with aromatic amino acids on transpiration in *Phaseolus vulgaris* 31
Interactions of diclofop-methyl and 2,4-D in cultivated oats (*Avena sativa*) 363
Interference of pale smartweed (*Polygonum lapathifolium*) with cabbage (*Brassica oleracea*) 381
International Crops Research Institute for the Semi-Arid Tropics, weed research at 451
International Institute of Tropical Agriculture, weed science research in 439
International Rice Research Institute, weed research at 461
International weed science: a symposium 438
Intraspecific competition of *Hydrilla verticillata* 425
Introduced plants, noxious or poisonous weeds 300
Ionization of buthidazole, VEL 3510, tebuthiuron, fluridone, metribuzin, and prometryn 467
Ipomoea control in soybeans 409
Ipomoea lacunosa competitiveness with cotton 568
Ipomoea spp., response to temperature and osmotic stresses 76
Iraq, morphological development of cogongrass in 324
Irrigation water, sprinkler system for applying herbicides in 201
Irrigation water, surface, weed seed dissemination by 87
Isocoma drummondii, uptake and transport of 2,4-D and picloram by 678
Israel, weed research in 457
Itchgrass, shading on leaf anatomy and ultrastructure of 216

J

Jacquemontia tamnifolia, response to temperature and osmotic stresses 76
Jimsonweed, absorption and translocation of tetrafluron in 557
Johnsongrass, control of in soybeans 529
Johnsongrass, glyphosate toxicity to 59
Johnsongrass, translocation of ^{14}C-glyphosate in 113

K

L

Laboratory studies on the behavior of the herbicide safener CGA-43089 6
Lambsquarters, nitrate reduction in 484
Lanolin, on absorption and translocation of herbicides 149
Latin America, weed problems in 454
Layby of cotton, application of dinitrobenzamines at 212
Leaching of EPTC and R-25788 in soil 241
Leaf age, nitrate reduction as a function of 484
Leaf area, projected, in weed control research 548
Leaf mesophyll, of itchgrass, effects of shading of 216
Leaf movements in sicklepod (*Cassia obtusifolia*) in relation to herbicide response 551
Life histroy and ecology of dwarf spikerush (*Eleocharis coloradoensis*) 263
Light on metribuzin response of tomato 186
Lolium perenne, control of wheat with ethofumesate in 292
Longevity of velvetleaf (*Abutilon theophrasti*) seeds in soil under agricultural practice 341
Long-term impact of aerial application of 2,4,5-T to longleaf pine (*Pinus palustris*) 255
Lycopersicon esculentum, environment on diphenamid selectivity in 176
Lycopersicon esculentum, light on metribuzin response of 186

M

Major actions of the Board of Directors, WSSA, February, 1980 . . 465
Major actions of the WSSA Executive Committee 745
Mathematical expression of physiological interaction 573
Medicago sativa, absorption, translocation, and metabolism of buthidazole in 635
Medicago sativa, control of weeds in 164
Medicago sativa seed, weed control from EPTC applied with 607
Membrane permeability, glyphosate on, in root tissue 671
Membranes, oat, action of herbicides and Tween 20 on 122
Mentha piperita, bentazon for Canada thistle control in 36
Mesquite growth inhibition by fosamine 251
Mesquite, honey, effectiveness and distribution of herbicides in . . 666
Metabolism of alachlor in snap beans 131
Metabolism of ^{14}C-buthidazole in alfalfa and quackgrass 635
Metabolism of 2,4-D and glyphosate in hemp dogbane 13
Metabolites, glyphosate, on metabolism in soybean 393
Metolachlor, growth inhibitory characteristics of 168
Metolachlor, response of nutsedge to 708
Metolachlor, safener for protecting sorghum from 1
Metribuzin, light on response of tomato and weed species to 186
Metriflufen, response of grass weeds to 540
Milkweed, honeyvine, response to herbicides 722
Millet, Japanese, competition with yellow nutsedge 24
Minutes of the business meeting, WSSA, February, 1980 466
Mode of action of chloroacetamides, use of in vitro protein synthesizing system to test the 334
Moisture stress and hydration-dehydration effects on hemp sesbania (*Sesbania exaltata*) seed germination 487
Morningglory control in soybeans 409
Morningglory, pitted, competitiveness with cotton 568
Morningglory, response to temperature and osmotic stress 76
Movement of herbicides through isolated American pondweed (*Potamogeton nodosus*) epidermal tissues 419
Mulching, control of broomrape by solar heating of soil by 312
Mullein, common, control of, with *Cucullia verbasci* 27
Mycorrhizae, effects of herbicides on 599

N

Necrology Committee report – 1980. 464
News Notes 228
Nicotiana tabacum foliage, benefin effects from soil vaporization on 306
Nitrate reduction in redroot pigweed (*Amaranthus retroflexus*) and common lambsquarters (*Chenopodium album*) as a function of leaf age and photosynthetic photon flux density 484
Nitrate, soil, germination response of weed seeds to 190
Nitrogen fertilization, triallate phytotoxicity and 740
Nitrogen, on weed control and corn yield 719
Nutsedge, yellow, allelopathic effect on corn and soybeans 229
Nutsedge, yellow, anatomy of 432
Nutsedge, yellow and purple, response to metolachlor 708
Nutsedge, yellow, competition with cotton 327
Nutsedge, yellow, competition with Japanese millet 24
Nutsedge, yellow, control with acetanilide herbicides 593

O

Oak, live, control with soil-applied herbicides 51
Oat membranes, action of herbicides and Tween 20 on 122
Oat, wild, hydrolysis of diclofop-methyl in 725
Oats, 2,4-D on diclofop-methyl toxicity to 371
Oats, interactions of diclofop-methyl and 2,4-D in 363
Oat-soybean ecofarming, control of weeds in 46
Organic matter, adsorption of herbicides by 478
Orobanche aegyptiaca, control by solar heating of soil 312
Orobanche control, glyphosate for 692
Orobanche minor in the United States 119
Osmotic stress, response of *Ipomoea* and *Jacquemontia tamnifolia* 76
Overwintering, germination response of weed seeds to soil nitrate and ammonium with simulated 190
Oxyfluorfen, site of action of 640

P

Panicum dichotomiflorum seed, dormancy, germination, and emergence of 683
Panicum dichotomiflorum, seed dormancy in 64
Panicum, fall, dormancy, germination, and emergence characteristics of seed 683
Panicum, fall, seed dormancy in 64
Pasture weeds, canopy and chemistry of 139
Peanut, absorption and translocation of tetrafluron in 557
Peanuts, row spacing on 401
Peas, processing, acetanilide herbicides on 589
Peppermint, bentazon for Canada thistle control in 36
Performance of six substituted dinitrobenzamine herbicides applied at layby of cotton (*Gossypium hirsutum*) 212
Persistence of dinitramine in soil 650
Persistence of several controlled release formulations of trifluralin in greenhouse and field 21
Persistence of three dinitroaniline herbicides on the soil surface . . 105
pH, on weed control and corn yield 719
pH, surface, atrazine dissipation as affected by 101
Phaseolus vulgaris, alachlor uptake, translocation, and metabolism in 131
Phaseolus vulgaris, interaction of glyphosate with aromatic amino acids on transpiration in 31
Phaseolus vulgaris, weed control in western Nebraska in 295

Phenolic compounds, metabolism of glyphosine and glyphosate metabolites on . . . 393
Phenylalanine ammonia-lyase activity, glyphosine and glyphosate metabolism on . . . 393
Phenylurea herbicide interactions . . . 521
Photoperiod on growth of cogongrass . . . 505
Photosynthesis of corn, buthidazole on . . . 97
Photosynthetic flux density, nitrate reduction as a function of . . 484
Physiological interaction, its mathematical expression . . . 573
Phytotoxic interaction between phenylurea herbicides in a cotton (*Gossypium birsutum*)– soybean (*Glycine max*) sequence . . . 521
Phytotoxicity, pronamide, in soils . . . 429
Phytotoxicity, triallate . . . 740
Picloram dissipation in a small southwestern stream . . . 612
Picloram in honey mesquite . . . 666
Picloram soil residues in fall-burned chaparral . . . 282
Picloram, uptake and transport by Drummond's goldenweed . . . 678
Pigweed, nitrate reduction in . . . 484
Pigweed, redroot, competition with cotton . . . 258
Pigweed, redroot, competitiveness with cotton . . . 568
Pigweed, redroot, stimulation of germination by ethylene . . . 510
Pigweed, redroot, uptake and translocation of buthidazole . . . 285
Pigweed seed germination responses to environmental factors . . . 543
Pine, longleaf, aerial application of 2,4,5-T to . . . 255
Pines, herbicides on mycorrhizae of . . . 599
Pinus palustris, aerial application of 2,4,5-T to . . . 255
Pinus spp., herbicides on mycorrhizae of . . . 599
Plot sprayers, timer for . . . 690
Polyethylene mulching, solar heating of soil by . . . 312
Polygonum lapathifolium, interference with cabbage . . . 381
Pondweed, American, epidermal tissues, movement of herbicides through . . . 419
Population source, on growth of cogongrass . . . 505
Postemergence herbicidal control of johnsongrass . . . 529
Postemergence winter weed control in bermudagrass (*Cynodon dactylon*) turf . . . 385
Potamogeton nodosus, movement of herbicides through epidermal tissues . . . 419
Potential antidotes against buthidazole injury to corn (*Zea mays*) . 273
Potential effects of global atmospheric CO_2 enrichment on the growth and competitiveness of C_3 and C_4 weed and crop plants . . . 71
Prickly sida, absorption and translocation of tetrafluron in . . . 557
Projected leaf area in weed control research . . . 548
Pronamide phytotoxicity in ten Wisconsin soils . . . 429
Prosopis juliflora var. *glandulosa* growth inhibition by fosamine . . 251
Prosopis juliflora var. *glandulosa*, herbicides in . . . 666
Protectant CGA-43089, influence of acetamides on efficacy of . . 646
Protein, glyphosine and glyphosate metabolites on . . . 393
Protein synthesizing system to test mode of action of chloracetamides . . . 334
Purposefully introduced plants that have become noxious or poisonous weeds . . . 300

Q

Quackgrass, absorption, translocation, and metabolism of buthidazole in . . . 635
Quackgrass control with glyphosate . . . 654
Quackgrass control, with HOE 29152 . . . 493
Quercus virginiana, control with soil-applied herbicides . . . 51

R

Ragweed, damage caused by fungus . . . 632
Range forage responses to herbicides . . . 602
Recirculating sprayer, glyphosate toxicity to johnsongrass and soybeans applied by . . . 59
Red beet root tissue, glyphosate on permeability of . . . 671
Redroot pigweed (*Amaranthus retroflexus*) seed germination responses to afterripening, temperature, ethylene, and some other environmental factors . . . 543
Reduced tillage system, atrazine carryover in . . . 661
Reduced transpiration and increased water efficiency by diuron in corn (*Zea mays*) . . . 180
Release of starch-encapsulated thiocarbamates . . . 685
Residual activity, starch xanthate and sludge polymer on . . . 626
Residual effects of herbicides on newly planted bermudagrass (*Cynodon dactylon*) . . . 716
Residues, soil, of picloram in fall-burned chaparral . . . 282
Respiration of corn, buthidazole on . . . 97
Response of honeyvine milkweed (*Ampelamus albidus*) to herbicide applications . . . 722
Response of selected grass weeds to metriflufen . . . 540
Response of yellow (*Cyperus esculentus*) and purple (*Cyperus rotundus*) nutsedge to metolachlor . . . 708
Responses of *Ericameria* to herbicides . . . 602
Responses of *Ipomoea* spp. and smallflower morningglory (*Jacquemontia tamnifolia*) to temperature and osmotic stresses . . . 76
Retardation of hydrilla (*Hydrilla verticillata*) regrowth through chemical control of vegetative reproduction . . . 245
Retention of diclofop-methyl, selectivity mechanisms . . . 474
Rhythms, endogenous, on downy brome germination . . . 321
Root growth of southern turf cultivars as affected by herbicides . . 526
Root tissue, glyphosate on permeability of . . . 671
Rotation, ecofarming, weed control in oat-soybean . . . 46
Rottboellia exaltata, shading effects on leaf anatomy and ultrastructure of . . . 216
Row spacing, on competitiveness and yield of peanuts . . . 401
Ryegrass, control of wheat with ethofumesate in . . . 292

S

Safener CGA-43089, laboratory studies on behavior of . . . 6
Safener for protecting sorghum from metolachlor . . . 1
Seed dormancy in fall panicum . . . 64
Seed, fall panicum, dormancy, germination, and emergence of . . . 683
Seed germination, enhancement by sodium azide granules . . . 674
Seed germination, hemp sesbania . . . 487
Seed germination, redroot pigweed . . . 543
Seed germination, turnip, inhibition of by velvetleaf seed . . . 658
Seed, weed, dissemination by surface irrigation water . . . 87
Seed, weed, germination response to soil nitrate and ammonium . 190
Seed, weed, populations in cultivated soil . . . 134
Seedlings, soybean, metabolism of, glyphosate on . . . 393
Seeds, velvetleaf, longevity of . . . 341
Selective postemergence herbicidal control of johnsongrass (*Sorghum halepense*) in soybeans (*Glycine max*) . . . 529
Selective weed control from EPTC applied with seed of alfalfa (*Medicago sativa*) . . . 607
Selectivity mechanisms for foliar applications of diclofop-methyl. I. Retention, absorption, translocation, and volatility . . . 474
Senna, coffee, geographic distribution, germination, and emergence . . . 68
Sesbania exaltata seed germination, moisture stress on . . . 487
Setaria lutescens, biotype studies . . . 159
Shading effects on growth and partitioning of plant biomass in cogongrass (*Imperata cylindrica*) from shaded and exposed habitats . 735
Shading on anatomy and ultrastructure of leaves of itchgrass . . . 216
Sicklepod (*Cassia obtusifolia*) and coffee senna (*Cassia occidentalis*): geographic distribution, germination, and emergence . . . 68
Sicklepod competition with cotton . . . 258
Sicklepod, leaf movements in relation to herbicide response . . . 551
Sida, prickly, competitiveness with cotton . . . 568
Sida spinosa, absorption and translocation of tetrafluron in . . . 557
Sida spinosa, competitiveness with cotton . . . 568
Siduron effects on tall fescue (*Festuca arundinacea*) emergence, growth, and high temperature injury . . . 194
Site of action of oxyfluorfen . . . 640
Site of uptake and translocation of ^{14}C-buthidazole in corn (*Zea mays*) and redroot pigweed (*Amaranthus retroflexus*) . . . 285
Sludge polymer, on initial activity of herbicides . . . 626
Smartweed, pale, interference with cabbage . . . 381

Smutgrass control, herbicide and cultural practices in 585
Smutgrass (*Sporobolus poiretii*) control in south Florida 316
Sodium azide granules to enhance seed germination 674
Soil, atrazine carryover in 661
Soil, cultivated, estimating weed seed populations in 134
Soil, ethylene in, as seed germination stimulant 510
Soil, field, trifluralin volatility from 224
Soil, leaching of EPTC and R-25788 241
Soil, longevity of velvetleaf seeds in 341
Soil moisture, influence on foliar activity of diclofop 534
Soil nitrate, germination response of weed seeds to 190
Soil persistence of dinitramine 650
Soil residues of picloram in fall-burned chaparral 282
Soil, sandy loam, adsorption of herbicides by 478
Soil, solar heating of, for control of Egyptian broomrape 312
Soil, surface, persistence of dinitroaniline 105
Soil vaporization of benefin, effects on tobacco foliage 306
Soil-applied herbicides, control of live oak and understory vegetation with 51
Soil-applied herbicides, control of whitebrush with 204
Soils, pronamide phytotoxicity in 429
Solanum carolinense, glyphosate activity in 93
Solar heating of soil for control of Egyptian broomrape 312
Some effects of buthidazole on corn (*Zea mays*) photosynthesis, respiration, anthocyanin formation, and leaf ultrastructure 97
Sonchus arvensis, control in alfalfa 164
Sorghum, acetanilide-antidote combinations for weed control in . 699
Sorghum bicolor, acetanilide-antidote combinations for weed control in 699
Sorghum bicolor, influence of acetamides on efficacy of protectant 646
Sorghum bicolor, safener for protection from metolachlor 1
Sorghum, grain, influence of acetamides on efficacy of protectant . 646
Sorghum halepense, glyphosate toxicity applied by recirculating sprayer to 59
Sorghum halepense, in soybeans, control of 529
Sorghum halepense, translocation of ^{14}C-glyphosate in 113
Sorghum, safener for protection from metolachlor in 1
Sowthistle, perennial, in alfalfa, control of 164
Soybean, glyphosate on metabolism of phenolic compounds in . . 393
Soybean, phenylurea herbicide interaction in 521
Soybean-oat ecofarming, control of weeds in 46
Soybeans, allelopathic effect of yellow nutsedge on 229
Soybeans, control of johnsongrass in 529
Soybeans, control of morningglory in 409
Soybeans, control of quackgrass with HOE 29152 in 493
Soybeans, glyphosate toxicity applied by recirculating sprayer to . . 59
Soybeans, growth analysis of, in competition with velvetleaf 729
Soybeans, herbicide injury on yield of 40
Soybeans, translocation of ^{14}C-glyphosate in 113
Spikerush, dwarf, allelopathy in 499
Spikerush, dwarf, life history and ecology of 263
Sporobolus poiretii control 585
Sporobolus poiretii control in south Florida 316
Sprayer, recirculating, glyphosate toxicity to johnsongrass and soybeans applied by 59
Sprayers, plot, timer for 690
Sprinkler system for applying herbicides in irrigation water 201
Spurge, leafy, control by spurge hawkmoth 235
Starch xanthate, on herbicide activity 626
Starch-encapsulated thiocarbamates 685
Stimulation of common cocklebur (*Xanthium pensylvanicum*) and redroot pigweed (*Amaranthus retroflexus*) seed germination by injections of ethylene into soil 510
Stream, picloram dissipation in a 612
Stress, temperature and osmotic, on *Ipomoea* and *Jacquemontia tamnifolia* 76
Sugarbeets, control of annual weeds by herbicides 152
Susceptibility of several grasses to glyphosate 579
Sustaining members, WSSA 234, 616
Symposium on international weed science 438

T

Tamarix pentandra ecotypic variation of epicuticular wax with relation to herbicide sensitivity 110
Taraxacum officinale control in alfalfa 164
Tebuthiuron, adsorption of 478
Tebuthiuron, ionization of. 467
Temperature, afterripening, on downy brome germination 321
Temperature influences on uptake, translocation, and metabolism of alachlor in snap beans (*Phaseolus vulgaris*) 131
Temperature injury of tall fescue, siduron on 194
Temperature, on growth of cogongrass 505
Temperature, redroot pigweed seed germination responses to . . . 543
Temperature, response of *Ipomoea* and *Jacquemontia tamnifolia* 76
Terbacil, control of weeds in cranberries with 565
Tetrafluron, absorption and translocation of 557
The allelopathic effect of yellow nutsedge (*Cyperus esculentus*) on corn (*Zea mays*) and soybeans (*Glycine max*) 229
The basis of the antagonistic effect of 2,4-D on diclofop-methyl toxicity to wild oat (*Avena fatua*) 371
The influence of soil moisture on the foliar activity of diclofop 534
Thiocarbamates, structure and release from starch encapsulation 685
Thistle, Canada, allelopathic activity of 83
Thistle, Canada, chlorflurenol on absorption and translocation of dicamba in 197
Thistle, Canada, control in peppermint with bentazon 36
Thistle, musk, inheritance of flower color 347
Tillage, effects on atrazine dissipation 101
Tillage, on weed control and corn yield 719
Tillage system, atrazine carryover in 661
Timer for plot sprayers 690
Tobacco foliage, benefin effects from soil vaporization on 306
Tomato, environmental influences on diphenamid selectivity . . . 176
Tomato, light on metribuzin response of 186
Toxicity of glyphosate applied by recirculating sprayer to johnsongrass and soybeans 59
Translocation and absorption of glyphosate and barnyardgrass control, effect of growth stage and water stress on 277
Translocation, glyphosate, in bermudagrass and horsenettle 93
Translocation of alachlor in snap beans 131
Translocation of buthidazole 352
Translocation of ^{14}C-buthidazole in alfalfa and quackgrass 635
Translocation of buthidazole in corn and redroot pigweed 285
Translocation of dicamba in Canada thistle, chlorflurenol effects on 197
Translocation of diclofop-methyl, selectivity mechanisms 474
Translocation of 2,4-D and glyphosate in hemp dogbane 13
Translocation of 2,4-D or glyphosate in hemp dogbane 149
Translocation of ^{14}C-glyphosate in soybeans *(Glycine max)* and johnsongrass *(Sorgbum halepense)* 113
Translocation of tetrafluron in cotton, jimsonweed, peanuts, and prickly sida 557
Transpiration in *Phaseolus vulgaris*, glyphosate interaction with aromatic amino acids on 31
Transpiration, reduced by diuron in corn 180
Transport of 2,4-D and picloram by Drummond's goldenweed . . 678
Triallate, fall- and spring-applied, control of wild oat with 416
Triallate phytotoxicity and nitrogen fertilization 740
Triclopyr in honey mesquite 666
Trifluralin, persistence in greenhouse and field 21
Trifluralin volatility from field soil 224
Triticum aestivum control in ryegrass with ethofumesate 292
Turf, bermudagrass, goosegrass control in 378
Turf, bermudagrass, winter weed control in 385
Turf cultivars, root growth as affected by herbicides 526
Turnip seed germination, inhibition of 658
Tween 20 on oat membranes 122

U

Ultrastructure, of corn leaf, buthidazole on 97
Understory vegetation control with soil-applied herbicides 51
Uptake of alachlor in snap beans 131
Uptake of 2,4-D and picloram by Drummond's goldenweed 678
Use of an in vitro protein synthesizing system to test the mode of action of chloracetamides 334

V

Vaccinium macrocarpon, control of weeds in 565
Vegetable cropping systems, Asian, weed management in 445
Vegetative reproduction of hydrilla controlled by chemicals 245
Velvetleaf, competition of soybeans with 729
Velvetleaf seed inhibition of turnip seed germination 658
Velvetleaf seeds, longevity in soil 341
Verbascum thapsus, control of, with *Cucullia verbasci* 27
Vernolate for augmentation of quackgrass (*Agropyron repens*) control with glyphosate 654
Volatility of trifluralin from field soil 224

W

Water efficiency, increased by diuron in corn 180
Water, irrigation, sprinkler system for applying herbicides in 201
Water stress on barnyardgrass control and glyphosate absorption . 277
Wax, epicuticular, of *Tamarix pentandra*, ecotypic variation with relation to herbicide sensitivity 110
Weed control from EPTC applied with alfalfa seed 607
Weed control in corn and sorghum 699
Weed control in field beans (*Phaseolus vulgaris*) in western Nebraska 295
Weed control, pH, nitrogen, and tillage on 719
Weed control research, projected leaf area in 548
Weed control, winter, postemergence, in bermudagrass 385
Weed management in Asian vegetable cropping systems 445
Weed problems in Latin America 454
Weed research at ICRISAT (International Crops Research Institute for the Semi-Arid Tropics) 451
Weed research in Israel 457
Weed science, a changing technology 617
Weed science at CIAT (Centro Internacional de Agricultura Tropical) and weed problems in Latin America 454
Weed science, international, a symposium 438
Weed science research at IRRI (International Rice Research Institute) and its role in weed science in the Asian region 461
Weed science research at the International Institute of Tropical Agriculture and research needs in Africa 439
Weed science: the emergence of a vital technology 621
Weed seed dissemination by surface irrigation water 87
Weed seed germination response to soil nitrate and ammonium . . 190
Weed seed populations in cultivated soil 134
Weeds, annual, acetanilide herbicides on 589
Weeds, annual, control in sugarbeets 152
Weeds, grass, response to metriflufen 540
Weeds in cranberries, control of 565
Weeds in oat-soybean ecofarming rotation 46
Weeds, noxious or poisonous, introduced plants that are 300
Weeds, pasture, canopy and chemistry of 139
Wheat control in ryegrass with ethofumesate 292
White rust fungus damage to ragweed 632
Whitebrush control with soil-applied herbicides 204
Wild oat (*Avena fatua*) control with fall- and spring-applied triallate 416
Wild oat, 2,4-D on hydrolysis of diclofop-methyl in 725
Winter weed control in bermudagrass turf 385
Woody plants, hexazinone on 358

X

Xanthium pensylvanicum, stimulation of germination by ethylene 510

Y

Yellow foxtail (*Setaria lutescens*) biotype studies: dormancy and germinaton 159
Yellow nutsedge (*Cyperus esculentus*) competition with cotton (*Gossypium hirsutum*) 327
Yield, corn, pH, nitrogen, and tillage on 719
Yield potential of soybeans, herbicide injury on 40

Z

Zea mays, acetanilide-antidote combinations for weed control in . 699
Zea mays, allelopathic effect of yellow nutsedge on 229
Zea mays, antidotes for buthidazole injury to 273
Zea mays, diuron reduction of transpiration and increased water efficiency in 180
Zea mays, effects of buthidazole on 97
Zea mays, gibberellic acid sensitivity by fluridone and R-40244 . . . 11
Zea mays, nutsedge control in 593
Zea mays, uptake and translocation of buthidazole 285
Zea mays yield, pH, nitrogen, and tillage on 719
2,4-D, absorption and translocation of, in hemp dogbane 149
2,4-D absorption, translocation, and metabolism in hemp dogbane . 13
2,4-D and diclofop-methyl in cultivated oats 363
2,4-D on diclofop-methyl toxicity to wild oats 371
2,4-D, on the hydrolysis of diclofop-methyl 725
2,4-D, uptake and transport by Drummond's goldenweed 678
3,6-Dichloropicolinic acid in honey mesquite 666
HOE 29152, for control of quackgrass 493
R-25788 leaching in soil 241
R-40244, gibberellic acid sensitivity in corn by 11
2,4,5-T; aerial application to longleaf pine 255
2,4,5-T in honey mesquite 666
VEL 3510, adsorption of 478
VEL 3510, ionization of 467
